International Journal of Optics and Photonics (IJOP) is an open access journal published by the Optics and Photonics Society of Iran (OPSI). It is published online semiannually and its language is English. All publication expenses are paid by OPSI, hence the publication of paper in IJOP is free of charge.

For information on joining the OPSI and submitting papers, please visit http://www.ijop.ir, http://www.opsi.ir, or contact the society secretarial office via info@opsi.ir.

**SCOPE**

Original contributions relating to advances, or state-of-the-art capabilities in the theory, design, applications, fabrication, performance, and characterization of: Lasers and optical devices; Laser Spectroscopy; Lightwave communication systems and subsystems; Nanophotonics; Nonlinear Optics; Optical Based Measurements; Optical Fiber and waveguide technologies; Optical Imaging; Optical Materials; Optical Signal Processing; Photonic crystals; and Quantum optics, and any other related topics are welcomed.

**INFORMATION FOR AUTHORS**

International Journal of Optics and Photonics (IJOP) is an open access Journal, published online semiannually with the purpose of publication of original and significant contributions relating to photonic-lightwave components and applications, laser physics and systems, and laser-electro-optic technology. Please submit your manuscripts through the Web Site of the Journal ([http://www.ijop.ir](http://www.ijop.ir)). Authors should include full mailing address, telephone and fax numbers, as well as e-mail address. Submission of a manuscript amounts to assurance that it has not been copyrighted, published, accepted for publication elsewhere, and that it will not be submitted elsewhere while under consideration.

**MANUSCRIPTS**

The electronic file of the manuscript including all illustrations must be submitted. The manuscript must be in double column with the format of IJOP Paper Template which for ease of application all over the world is in MS-Word 2003. The manuscript must include an abstract. The abstract should cover four points: statement of problem, assumptions, and methods of solutions, results and conclusion or discussion of the importance of the results. All pages, including figures, should be numbered in a single series. The styles for references, abbreviations, etc. should follow the IJOP format. For information on preparing a manuscript, please refer to the IJOP webpage at: [http://www.ijop.ir](http://www.ijop.ir).

Prospective authors are urged to read this instruction and follow its recommendations on the organization of their paper. References require a complete title, a complete author list, and first and last pages cited for each entry. All references should be archived material such as journal articles, books, and conference proceedings. Due to the changes of contents and accessibility over time, Web pages must be referenced as low as possible.

**Figure captions** should be sufficiently clear so that the figures can be understood without referring to the accompanying text. Lettering and details of the figures and tables should be large enough to be readily legible when the drawing is reduced to one-column width of the double column article. **Axes of graphs** should have self-explanatory labels, not just symbols (e.g., Electric Field rather than E). **Photographs** and **figures** must be glossy prints in electronic files with GIF or JPEG Formats.

**Article Keywords** are mandatory and must be included with all manuscripts. Please choose approximately 4 to 8 keywords which describe the major points or topics covered in your article.

**COPYRIGHT TRANSFER FORM**

Authors are required to sign an IJOP copyright transfer form before publication. **Authors must submit the signed copyright form with their manuscript.** The form is available online at [http://www.ijop.ir](http://www.ijop.ir).
