The International Journal of Optics and Photonics (IJOP) is an international **open access** journal published semiannually by The Optics and Photonics Society of Iran (OPSI) since 2007. The journal language is English. For the accepted papers which have been submitted after June 21, 2021, an article processing charge of 5.000.000 Rials must be paid before final online publication. Due to the covid-19 pandemic, this charge is waived now.

## SCOPE

Original contributions relating to advances and state-of-the-art capabilities in the theory, design, applications, fabrication, performance, and characterization of: Lasers and Optical Devices; Laser Spectroscopy; Lightwave Communication Systems and Subsystems; Nanophotonics; Nonlinear Optics; Optical Based Measurements; Optical Fiber and Waveguide Technologies; Optical Imaging; Optical Materials, Metamaterials, and Metasurfaces; Optical Signal Processing; Photonic Crystals; Biophotonics; Quantum Optics, Electro-, Magneto-, and Acousto-Optics; Fourier Optics; Lidar; Optical Remote Sensing; and any other related topics are welcomed.

## INFORMATION FOR AUTHORS

International Journal of Optics and Photonics (IJOP) is a **peer-reviewed open access** journal, published online semiannually with the purpose of publication of original and significant contributions relating to above mentioned fields. Please submit your manuscripts through the Web Site of the journal (<http://www.ijop.ir>). Authors should include full mailing address and telephone, as well as e-mail addresses of all authors. Submission of a manuscript amounts to assurance that it has not been copyrighted, published, accepted for publication elsewhere, and that it will not be submitted elsewhere while under consideration.

## MANUSCRIPTS

The electronic file of the manuscript including all illustrations should be submitted online. The manuscript should be in double column with the format of **IJOP Paper Template** which for ease of application all over the world is in MS-Word 2016. The manuscript must include an abstract. The abstract should cover four points: statement of problem, assumptions, and methods of

solutions, results and conclusion or discussion of the importance of the results. All pages, including figures, should be numbered in a single series. The styles for references, abbreviations, etc. should follow the IJOP Template format. For information on preparing a manuscript, please visit the IJOP web site at: <http://www.ijop.ir>.

Prospective authors are urged to read the site instructions and follow the recommendations on the organization of their paper. References require a complete authors name list, complete article title, journal name abbreviation, volume, first and last pages cited, and year of publication for each entry. All references should be chosen from archived material, such as journal articles, books, and conference proceedings. Due to the changes of contents and accessibility over time, web sites must be referenced as low as possible.

**Figure captions** must be clear, independent of the article body, so that the figures can be understood without referring to the article text. Lettering and details of the **figures** and **tables** must be large enough to be readily legible when the drawing is reduced to one-column width of the double column article. **Axes of graphs** should have self-explanatory labels, not just symbols (e.g., "Electric Field (V/m)" rather than "E (V/m)"). **Photographs** and **figures** must be glossy prints in electronic files with gif, tiff, jpg, or png format.

**Article Keywords** are mandatory and must be included with all manuscripts. Please choose approximately 4 to 10 keywords which describe the major points or topics covered in your article.

## COPYRIGHT TRANSFER FORM

Authors are required to sign an IJOP copyright transfer form before their manuscript publication. Authors must submit the signed copyright form with their final manuscript. The form is available online at <http://www.ijop.ir>.
